

GitHub Handbook

sample.pdf — GitHub renders PDF files inline with a built-in viewer

What is this file?

This is a sample [.pdf](#) file. GitHub displays PDF files inline using a built-in PDF viewer — no download required. Users can scroll through pages and zoom in directly in the browser.

Common uses of PDF in repos

Use Case	Example
Research papers	arxiv-style papers alongside code
Design specs	UI/UX wireframes or mockups
Documentation	Exported API reference or user manual
Certificates	Course completion or license certificates
Reports	Data analysis results with charts

40 Lessons at a Glance

#	Lesson	Phase
1	What is Git & GitHub	Core Git
2	Setup & Config	Core Git
3	SSH Keys	Core Git
4	Creating Your First Repo	Core Git
5	Staging & Committing	Core Git
6	Commit Messages	Core Git
7	git log	Core Git
8	Git Object Model & HEAD	Core Git
9	.gitignore	Core Git
10	git diff	Core Git
11	Undoing Things	Core Git
12	git reflog	Core Git
21	Git Workflows	Core Git
22	Remote Repos	Remotes
25	Pull Requests	Remotes
26	Code Review	Remotes
31	Branch Protection Rules	Team
37	GitHub Actions	Automation
